**SUMMARY**

The parties confirmed to the Court that no objections had been received. The Court confirmed details of the settlement with the parties. Mr. Kazerounian requested guidance on late submitted claims and confirmed that Plaintiff would request that the late claims be accepted. Mr. Ibey stated that the late claims would need to be verified by the administrator before the late claims could be accepted. The Court ruled that simply being late to submit a claim was not reason for the claim to be rejected. The Court confirmed with the parties the details for distribution and confirmed that the Motions are granted. The parties were instructed to notify the Court by filing Declarations once distribution has been effected. The Declarations should state what has been completed and what remains to be completed.
